

Hensel's Photographic Series No. 8

By S. Robert Powell

There are nineteen known photographic series that were produced by Ludolph Hensel of Port Jervis, NY, and Hawley, PA. Eighteen of those series consist of stereoscopic views.

Ludolph Hensel (1849-1927). During his long and highly productive career as a studio photographer, in the late-nineteenth and early-twentieth centuries, Hensel took thousands of photographs of America and of Americans. The print of this photograph of Hensel from which the copy given here was produced is in the archives of the Wayne County Historical Society.

Historians from Hawley have determined the following facts about Ludolph Hensel: He was born on January 29, 1849 in New York City and moved to Port Jervis in 1866, where he became an assistant to another photographer. In 1875, he opened his own photography studio in Port Jervis at No. 4 Front Street. In 1878 he moved to Hawley, PA, where he established a highly successful photography studio on Main Street. He died in Hawley on November 29, 1927.

Twelve of the nineteen photographic series created by Hensel were created by Hensel in the Port Jervis period of his career. Seven were produced during the Hawley years.

The specific year of publication of only two of those series is known: Series 1 and 2 (see below), both of which were published in August 1879. That fact we have learned from a newspaper story, titled "Splendid Home Stereoscopic Views", that was published in the August 2, 1879 issue of the *Carbondale Advance*. Here is that article:

"Splendid Home Stereoscopic Views. / Mr. L. Hensel, a very skillful artist of Port Jervis, N. Y., has rendered our town, and our romantic coal region, a great service. For some months past he has been engaged in taking views upon the streets of our city, and of the whole town from surrounding elevations, and also along the line of our different railroads, including many wild, weird and romantic scenes. His subjects have been well chosen, and the work done with great judgment and skill. Together they make a collection of the finest stereoscopic views that have yet been published. No pictures can surpass them in romantic beauty, and we predict for them great popularity and a wide sale everywhere. Here, especially, they have an added and still greater value. They pertain to our own homes, and surroundings, and place in a most interesting form—so that they may be enjoyed at ease in our parlors—the picturesque beauty of scenes about us. They should be upon every centre table. / The names of the different views embraced in the list will be found in our advertising columns to-day, and a full supply can be found at the store of Henry B. Jadwin, on the Public Square, Price 20 cts. each; \$2.00 per dozen." These stereocards were also on sale at Peterson's and Greeley's in Honesdale.

Given below is the detailed announcement about those "Splendid Home Stereoscopic Views" that was also published in the August 2, 1879 issue of the *Carbondale Advance*:
